

Impact of the SFC re-calculation of PI data February 2018.

This data will be included in the SFC published sector-wide data sets from February 2018 onwards. In that publication it may be compared with published sector norms, averages, high-performing and low-performing institutions. Last years data is in the last column for comparison. Note SFC recalculated the data to be consistent with a report published in January 2018. They indicate that they may revert again to the original published data set.
