## KYLE ST AIDAN'S HIGH SCHOOL

Kyle successfully completed a two-year Foundation Apprenticeship in Civil Engineering, with work placement at Morgan Sindall and a Summer internship at Enevate Homes that he sourced for himself.

"I really enjoyed the Foundation Apprenticeship experience, and it helped me get myself out there. It gave me the confidence to apply for the Graduate Apprenticeship with my employer. I received lots of help and support from the team, but you also have to be proactive and have the courage to push yourself forward."

After successfully completing his Foundation Apprenticeship, Kyle is in his first year of a Graduate Apprenticeship with Morgan Sindall.
