PETRA

COATBRIDGE HIGH SCHOOL

In partnership with New College Lanarkshire, Petra was successful in securing a two-week work placement in a nursery in France during her Foundation Apprenticeship.

Traveling independently for the first time, Petra and her colleague made flashcards to help them communicate with the staff and pupils who did not speak any English and the trip was a huge success.

“I have enjoyed doing my Foundation Apprenticeship and have gained more than just experience. My confidence has grown, and I now have a clear career pathway in mind.”

Petra has provided valuable support to both teachers and pupils at St. Marys Primary School, where she has completed a work placement. She has applied to college but is also considering Modern Apprenticeship opportunities and has a choice of pathways to lead her to her career choice as nursery teacher.
